Script XML Converter Tool

This tool is for converting the data in SCENE BREAKDOWN Google sheet to an xml data file.
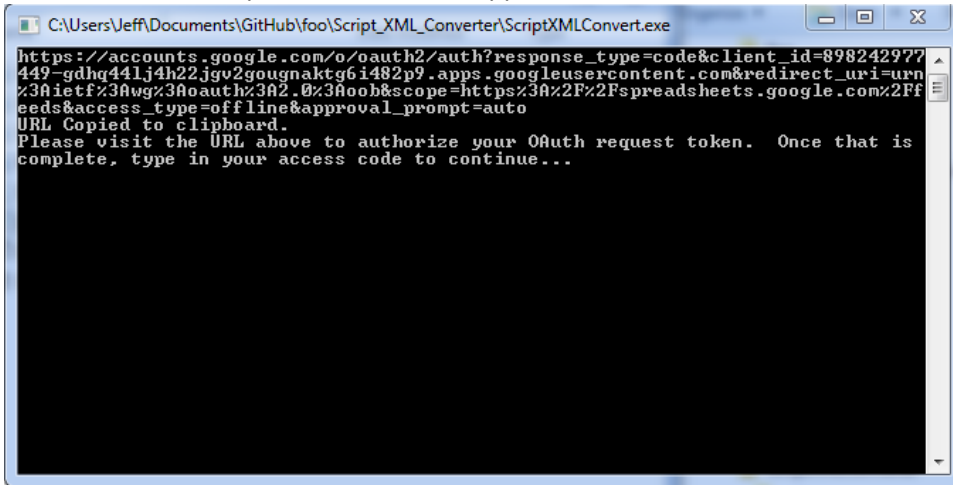

Install:

Download latest release from https://github.com/JeffreyMJohnson/ScriptXMLConverter/releases .
Unzip files into the same directory of your choice.
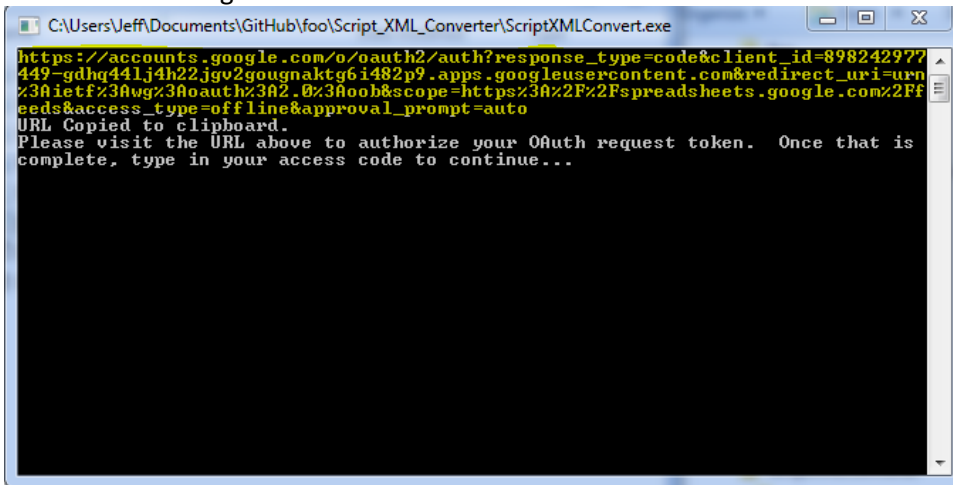

How to use:

Double-click the ScriptXMLConvert.exe application.

You will see a big long string which is the build URL to verify your permission to download the data from the SCENE BREAKDOWN Google sheet.

If the line after the URL is like below, stating the URL is copied to the clipboard, you can just move to the next step. Sometimes, the clipboard decides to not cooperate. If this happens, you will get a different message and you will need to *mark* and *copy* the URL string manually. If you need help with.

```
C:\Users\Jeff\Documents\GitHub\foo\Script_XML_Converter\ScriptXMLConvert.exe

https://accounts.google.com/o/oauth2/auth?response_type=code&client_id=898242977
449-gdhq44lj4h22jgv2gougnaktg6i482p9.apps.googleusercontent.com&redirect_uri=urn
%3Aietf%3Awg%3Aoauth%3A2.0%3Aoob&scope=https%3A%2F%2Fspreadsheets.google.com%2Ff
eeds&access_type=offline&approval_prompt=auto
URL Copied to clipboard.
Please visit the URL above to authorize your OAuth request token.  Once that is
complete, type in your access code to continue...
```

Once the URL is copies to the clipboard, open your web browser of choice and paste the URL into the address box and press enter.
If all went as planned you should get a Google login page. Login to the account that has permission to SCENE BREAKDOWN google sheet.

You should see a permission page. Click on accept.

Script XML Converter Tool would like to:

8   View and manage your spreadsheets in Google Drive ⓘ

By clicking Accept, you allow this app and Google to use your information in accordance with their respective terms of service and privacy policies. You can change this and other Account Permissions at any time.
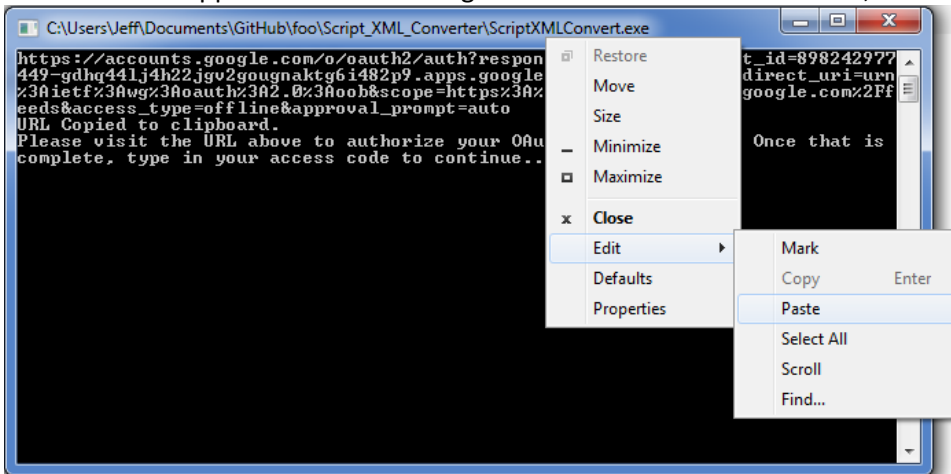

Cancel   **Accept**

You should receive the authentication code now. Click in the textbox, highlighting the contents and copy to the clipboard.

Google

Please copy this code, switch to your application and paste it there:
4/CRjnbqqXV2oeixkSsLLiDPGGyKnnVx90gBKtXV

Go back to the application window. Right-click on window and click edit, and then paste as seen below.

With the code pasted into the window, hit enter. The application will now complete, producing an xml data file SceneBreakdown.xml in the same directory. *Note:If the account logged in does not have permission, the application will still run. You will have an empty xml data file output however.*

C:\Users\Jeff\Documents\GitHub\foo\Script_XML_Converter\ScriptXMLConvert.exe
